

Solar Power Pack

Solar Power Packs are a great option for rural electrification. They provides a comfortable level of illumination in one or more rooms of a house. The SHS consists of a PV module, control electronics, battery, and luminaire (s). There are several SHS models featuring 5 numbers of luminaires based on White Light Emitting Diode (W-LED). The “D.C. Models” could be used to run a small DC fan or a 12-V DC television along with the W-LED Lamps, while the “A.C. Models” could be used to run a fan and/or a television along with the W-LED Lamps.
