

SCS-10K FOR AIR DEODORIZATION

SCS-10K (Chlorine Dioxide Powder) is a highly effective, safe, quick and broad spectrum disinfectant, recommended to the world by WHO and FAO with class A1. It is the fourth generation of disinfectant after Bleaching Powder (Pyochloride), Sodium Dichloroisocyanurate (SDIC (sodium dichloroisocyanurate)) and Trichloroisocyanuric Acid (TCCA). SCS-10K is a good sterilization agent against bacteria, mold, fungi, virus, as well as their spores.

SCS-10K well-known as a safe, effective, quick and broad spectrum disinfectant in the world. It can release oxygen atoms with strong oxidizing capacity, which can quickly and efficiently prevent the synthesis of protein of microorganism. SCS-10K a good sterilization agent against bacteria, mold, fungi, virus, as well as endospore. Meanwhile, SCS-10K able to purify air by oxidizing the substance which can release odor, for instance formaldehyde

Application Areas

- Disinfecting and removing odor in home, hospital, office and public space
- Disinfecting and fresh-keeping during the transportation and storage of vegetable and fruits
- In freezer, refrigerating cabinet, disinfecting and removing odor
- Fresh-keeping and removing odor of meat, processed foods during storage at cooling condition
